## MAINTENANCE INSTRUCTIONS: ANTI - SLIP MATERIAL

Use a yard broom with a handle to clean mud, pebbles, and snow.

In winter you can use salt and then clean.

**DO NOT USE ICE PICKS**  
or other aids that can cause mechanical damage.

**WE RECOMMEND:** To clean pavements, roads and entrances when temperatures are as low as  $-50^{\circ}\text{C}$  use **ESE - Eis und Schnee Ex snow and ice solution**. It is effective for up to three days and does not attack plastics, tiles or marble. It is also completely water-soluble and environmentally friendly due to the addition of natural substances.

→ installation during operation
